Emergency Response Plan

Executive Statement

Safety, environmental protection, and legal compliance take precedence over production. This Plan is compulsory. Any deviation without prior written approval from the NPA Safety Director and the GK & A Managing Director is a breach subject to disciplinary action, removal from site, and contract termination for cause.

Introduction

This Plan is a jointly endorsed, auditable operational control developed under Nigerian Ports Authority (NPA) oversight. Procedures, notification chains, and role interfaces have been reviewed with NPA and are mandatory for all personnel and contractors on GK & A-controlled areas of the NPA Lighter Terminal, Ikorodu.

Aspect	Description
Enforcement	Roles and accountabilities are assigned in writing. Compliance is continuously monitored. Violations are escalated through disciplinary protocols and may trigger regulatory reporting to NPA and relevant authorities.
Joint Execution	GK & A and NPA Safety Officers shall co-lead emergency activations, joint drills, audits, debriefs, and corrective actions. NPA retains authority to intervene and direct operations where necessary to protect life, environment, and port security.

---

1. Purpose

This Plan establishes an integrated, zero-harm emergency management framework to:

Objective	Description
Protection	Protect people, property, cargo integrity, and the environment
Prevention	Prevent escalation and minimize business interruption
Compliance	Achieve and evidence compliance with NPA directives, ISPS Code, IMDG Code, ISO 45001 and ISO 14001 principles, ILO/IMO Code of Practice for Safety and Health in Ports, Lagos State and Federal environmental obligations
Standards	Apply the most stringent requirement when standards overlap

Measurable Objectives

Metric	Target
Fatalities	Zero
Serious Injuries	Zero (life-altering)
Notification Time	Initiated within 5 minutes of emergency declaration
Headcount Reconciliation	Full headcount within 10 minutes of evacuation order
Drill Participation	≥ 90% of on-duty personnel
Corrective Action Closure	≤ 30 days
Spill Containment	No uncontrolled discharge to water; all spills contained within site boundary

---

2. Scope

Applies 24/7 to GK & A-controlled operations within the NPA Lighter Terminal, Ikorodu:

Area	Description
Primary Operations	Quay, jetties, cargo yards, and operational zones under NPA regulation
Storage	Warehouses and open storage areas
Refrigeration	Reefer container stacks, plug-in racks, and associated power/refrigeration systems

Interfaces and Inclusions

Group	Coverage
Personnel	All employees, contractors, subcontractors, visitors, clients, and third-party carriers
Third Parties	Tenants or third parties while in GK & A-controlled zones
Regulatory Oversight	NPA Safety Officers participate in activations, drills, debriefs, and reviews

Exclusions

Category	Details
Non-GK & A Premises	Excludes non-GK & A premises beyond defined interface points
Mutual Aid	GK & A shall support NPA-directed mutual aid and information sharing as requested

---

3. Definitions

Term	Definition
Emergency	Unplanned event threatening life, environment, assets, cargo, or operations
Incident Commander (IC)	On-scene authority responsible for declaring and managing the incident; approves re-entry
Deputy IC	Authorized alternate who assumes command if needed
Emergency Response Team (ERT)	Trained responders for Fire, HAZMAT/Spill, Medical, Refrigerant/Technical, Security
Public Information Officer (PIO)	Sole authorized spokesperson for external communications
Muster Point	Designated safe assembly location for headcount after evacuation
Exclusion Zone	Controlled perimeter restricting access to trained, authorized personnel only
ALARP	As Low As Reasonably Practicable; risk threshold for operations and rescue
Refrigerant	Substances used in reefers (e.g., A1: R-134a, R-404A, R-452A; A2L where applicable)
Shelter-in-place	Controlled indoor protection procedure during external airborne or security threats
Command Post (CP)	Primary/secondary locations where IC and key staff coordinate response
Staging Area	Controlled location where resources and teams assemble before tasking

---

4. Regulatory and Standards Alignment

This Plan aligns with and references:

Regulation/Standard	Description
NPA Safety Directives	Safety directives, permits, and port facility requirements
ISPS Code	Port Facility Security Plan (PFSP) interfaces
IMDG Code	SDS obligations; dangerous goods segregation
Environmental Laws	Lagos State and Federal environmental laws; LASEPA/NESREA notifications
ILO/IMO Code	Code of Practice for Safety and Health in Ports
LASEMA/NEMA	Incident coordination guidance
LSSC	Lagos State Safety Commission guidance
LASWA/NIWA	Coordination for waterway/marine incidents
Good Practice	NFPA firefighting guidance; EN 378 for refrigerating systems and machinery rooms (where applicable)
Data Protection	Nigeria Data Protection Act (NDPA) for incident/CCTV data handling

Where requirements differ, the stricter requirement applies.

---

5. Risk Profile and Major Accident Hazards (MAH)
